### ALLCARE Bed

- Low bed height (3.6") reduces falls risk
- Advanced positioning for added comfort and treatment with Cardiac Chair, Trend/Reverse Trendelenburg
- Comfort Wide sleep deck expands to 42" without the use of tools to improve resident comfort
- Evac Position® allows bed to pass through door way less than 36"
- Optional scale helps keep accurate resident weight
- Optional safety mat (shown above) will help turn a fall into a roll

Click Here to review our case study showing a 100% reduction in bedfalls with an individual at a SNF using our AllCare bed and safety mat
